On the following pages are lists of leagues that will most likely be formed, based on past registrations. This is only an estimation, but please use this as a guide for team placement when registering. Final placement will be determined by actual registration numbers and how we can best divide the teams into competitive leagues for each night. Please keep in mind if we have placed your team in a lower league and you feel your team should play in a higher league, you may request to move up as high as you want providing there is an opening in that particular league. If you have player changes from past seasons that you feel would cause you to need to switch levels of play just let us know so we can take that into account when creating the leagues.

Have a fun season!
